- The case of **Swine Flu** is growing day by day. We all need to protect ourselves from this deadly disease. Symptoms of swine flu are like regular flu. Please do not neglect if your child complains of: pain in muscles, dry cough, gastrointestinal dysfunction like diarrhoea, nausea, or vomiting, fatigue, or headache, shortness of breath or sore throat. We need to consult doctors immediately, if the symptoms prevail for more than two days. **Kindly do not send your child to school in such cases.** Awareness is the only prevention and we can overcome it with our commitment to eradicate the cause.
